SCHOOL OF LAW

**PROGRAM SPECIFICATION OF THE MASTER'S
PROGRAM IN CIVIL LAW AND CIVIL
PROCEDURE (2019)**

Hanoi, mm 7 yy 2021

I. BASIC INFORMATION ABOUT THE TRAINING PROGRAM IN CIVIL LAW AND CIVIL PROCEDURE LAW

Awarded by	Vietnam National University, Hanoi (VNU)
Implemented by	VNU School of Law (VNU-SL)
Accrediated by	AUN-QA (AEAN University Network)
Degree awarded after graduation	The Degree of Master in Law
Major	+ In English: Civil Law and Civil Procedure Law Code: 8380101.04
Goal	The research-oriented Master's Degree Program in Civil Law and Procedure aims to train experts with comprehensive, modern, in-depth knowledge of theoretical and practical issues of civil law and procedure, who will have the appropriate capacity, skills, and qualities to complete specialized jobs according to their training majors, and meet requirements of the labor market and society. The program also provides the necessary foundation of thinking, knowledge, and skills so that learners can study, research or continue their studies at higher levels.
Expected Learning Outcomes	<p>1. Knowledge</p> <p>PLO1: Apply the worldview and methodology of Marxist-Leninist philosophy to solve theoretical and practical problems in training majors;</p> <p>PLO2: Apply legal scientific research methods for academic work, scientific research, writing and defending graduation thesis as well as in professional activities after completing the program;</p>

PLO3: Apply basic knowledge to solve problems related to training majors, especially theoretical and practical issues in: Object rights/ Vật quyền; The Law on Obligations (Rights of Persons); Intellectual property law (Intellectual property rights, industrial property rights, adjacency rights...); Law on marriage and family (Marriage, Divorce and legal consequences of divorce...); Law of inheritance...;

PLO4: Applying to synthetically specialized knowledge, systematic legal thinking to solve practical problems related to civil law and civil procedure law;

PLO5: Writing and successfully defending the graduation thesis. The thesis is an independent scientific research work, with new contributions to solving the current scientific, theoretical or practical problems; contribute to building and forming a new theoretical framework, new ideas suitable to the major of civil law and civil procedure law;

PLO6: Analyze, evaluate, and critique regulations and policies of the Party and State on civil law and civil procedure law;

PLO7: Apply in-depth theoretical knowledge to be able to develop new knowledge and continue research at the doctoral level related to the training field;

PLO8: Effectively use foreign languages in study, research and professional work (foreign language ability is equivalent to level 3/6 according to Vietnam's Foreign Language Competency Framework).

2. Skills

2.1. Professional skills

PLO9: Apply legal norms on civil law and civil procedure law to solve problems arising in practice; organize the performance of professional work; complete tasks that are complicated, infrequent, irregular, and difficult to predict;

PLO10: Recognize, analyze, synthesize, and properly assess legal issues, forecast theoretical and practical issues related to civil law and civil procedure law; compare with theories and practical experiences from abroad to draw lessons that can be applied to conditions in Vietnam;

PLO11: Detect problems, carry out research; discuss, evaluate and critique; impart knowledge based on research results; receive and apply research results on theoretical and practical issues of civil law and civil procedure law;

PLO12: Provide legal advice on civil law and civil procedure law; propose recommendations and solutions to competent agencies and organizations;

PLO13: Update new knowledge and practical application of civil law and civil procedure law at home and abroad;

2.2. Additional skills

POL14: Search information and documents; Write and present research results, scientific reports, graduation theses

PLO15: Work independently or in groups to solve problems logically and creatively;

PLO16: Able to use foreign languages for special purposes to the extent that they can be understood and express in foreign languages in most common professional situations;

can write work-related reports, present opinions and critique a professional issue in a foreign language.

3. Ethical qualities

PLO17: *Personal ethical qualities*:- Have standard speech and behavior; - Empathize, share difficulties with others; be friendly with friends, colleagues, partners and customers; - Be diligent, hard-working, enthusiastic, and creative in study and work; ready to face difficulties and challenges; - Be proactive, confident in work, dare to take responsibility, express opinions and listen.

PLO18: *Professional ethical qualities*:- Promote justice, equity and humanity in work; Be brave, honest, objective; - Be progressive, cooperative, friendly with colleagues and other individuals in work; Be professional, serious, creative, scientific and responsible for assigned work;

PLO19: *Social ethical qualities*: Be patriotic, have a full sense of civic responsibility; - Protect the interests of the community and society; contribute to building a just, democratic and civilized society; - Fight against legal violations, negative manifestations.

4. Autonomy and responsibility

PLO20: Research, discover, advise and propose solutions to solve theoretical and practical problems arising in the training major; withdraw expert-like conclusions in the major and defend them;

PLO21: Be adaptable, self-directed to develop personal capacity in a highly competitive working environment; guide others to develop professional competence;

	PLO22: Develop, evaluate, manage professional plans; identify, evaluate and improve professional activities.
Jobs that students are able to take after graduation	<p>- <i>Group 1:</i> Working in law enforcement agencies such as: (i) Court, Procuracy, Judgment Enforcement Agency, Police; (ii) Working in government agencies at all levels, including central and local state agencies such as the Government, Ministries, People's Committees at all levels, Office of the National Assembly.</p> <p>- <i>Group 2:</i> Work as lawyers, consultants for companies, law offices, notary offices at home and abroad; legal specilists for State agencies, consultants for enterprises that in need of highly qualified human resources in law to facilitate their production and business activities.</p> <p>- <i>Group 3:</i> Teach and research at research or educational institutions on law, administration - politics (centers, research institutes on law, administration - politics; universities, colleges; (specialized in law or not);</p> <p>- <i>Group 4:</i> Work for non-governmental, intergovernmental, or international organizations.</p>

Standard input	According to VNU and VNU-SL's regulations
Matching Program	
Teaching, learning, and assessing strategies	1. Assessing methods <p>- Lecturers use of a mixture of modern teaching methods, facilities and equipment for teaching activities,</p>

especially those associated with information technology, multimedia suitable for credit and CDIO training approach to help students achieve the expected learning outcomes of the program and courses;

- Use the "student centered approach" to promote students' proactivity. The lecturer is an organizer, guider, orientor and controller in learning activities, creative thinking activities, and skill training activities so that students can master the learning content by themselves, achieving the goals of knowledge, skills and attitudes required by the program;

- Enhance the use of active teaching methods to improve self-discipline in learning, self-study and self-research capacity; develop creative, critical thinking; practice practical skills, improve teamwork skills, information searching and processing, presentation skills for students;

- Enhance extra-curricular activities, internships, practices, presentations, and seminars during the training process in order to provide practical knowledge to students;

2. Learning methods

- Students need to be active and proactive in the learning process, enhance self-study, reading, and working in groups before classes;

- Students build for themselves a suitable learning pace, and at the same time the way of learning in the direction of attaching importance to discovery and academic passion; learn how to come to understanding; learn to self-study; learn practical skills and attitudes in work; learn to be independent,

creative, flexible in perception and action;

- Students actively use modern information technology devices, enhance their foreign language and information technology skills in the learning process.

3. Assessment

- The assessment includes: input results assessment; in-learning progress through expected learning outcomes of the courses and program; and final/graduation assessment;

- Academic staff need to use different assessment methods and in accordance with the course outline for regular, mid-term, and final assessment. The scope and weight of the assessment plans should be clear and communicated to all stakeholders. The standards applied in the assessment plans must be transparent and consistent throughout the program;

- Functional entities have appropriate procedures in place to ensure assessment plans are valid, reliable, and fairly executed.

4. Academic and support staff

- The academic staff are highly qualified and capable, have been well-trained at home and abroad; have experience, qualified foreign languages;

- Managers, support staff, and administrative staff are capable, professional, dedicated, disciplined and have a high sense of responsibility;

- Implement academic staff exchanges with law universities in the region and around the world, invite experts and lecturers from domestic and foreign training and research

	<p>institutions to provide lectures to the program.</p> <p>5. Facilities, equipment</p> <ul style="list-style-type: none"> - Constantly upgrade and supplement existing facilities and equipment to meet the high-quality education and research needs of a research university on par with advanced universities in the region and the world. - Invest in modern and appropriate teaching and learning equipment; Provide a complete and rich system of learning and learning materials for for academic staff and learners.
<p>Instruction for the implementation of the training program</p>	<ul style="list-style-type: none"> - The Master’s Degree Program in Civil Law and Civil Procedure Law is applied to candidates who have passed the annual postgraduate entrance exam of VNU. - Upon admission, students will be introduced to the entire training program at the opening time, and will also be guided to register for elective courses. - The Department for Academic Affairs develops a study plan for the entire program and a list of courses arranged in the correct sequence of the training program. The study plan for the school year is released through the following channels: VNU (for reporting); Management Board of the School of Law; Relevant units in VNU; Units under the School; Class-teachers; students; and the School of Law’s website. - The Departments assign lecturers to teach according to the study plan of the school year and propose the exam format. The Dean of the School decides what the exam format will be chosen. - After completing all the courses in the knowledge blocks in

	the training program and successfully defending the graduation thesis, the student will be signed by the President of VNU to grant a Master's degree in Law, majoring in Civil Law and Civil Procedure Law.
The amount of credits to be achieved	64 credits
Type of training	Full-time
Language	Vietnamese
Duration	18 months to 24 months
Date of issue/revision	27 March, 2019 (final, current)
Place of issue	Vietnam National University, Hanoi

II: CURRICULUM

1. Summary of requirements of the curriculum

Total of cumulative credits:	64 credits
- General knowledge (compulsory):	<i>08 credits</i>
- Basic and professional knowledge:	36 credits
+ <i>Compulsory</i> :	<i>16 credits</i>
+ <i>Elective</i> :	<i>20/40 credits</i>
- Master thesis:	20 credits

3.2. Training sequences:

- a.** Opening: The first week of the first school year
- b.** Organizing learning and course assessments: Semesters 1, 2, 3 (From the 1st month of the first school year to the end of the 3rd month of the 2nd school year);
- c.** Organizing the evaluation of the outline, approving the thesis topic: At the end of the 3rd semester (the third month of the second school year);
- d.** Making a decision to recognize the thesis topic, appoint an instructor: At the beginning of the 4th semester (From the 3rd to the 5th month of the 2nd school year);
- e.** Students write thesis: Semester 4 (From the 4th to the 6th month of the 2nd academic year);
- f.** Students report the progress of their thesis to the Departments: At the end of semester 4 (the 6th month of the 2nd school year);
- g.** Students submit their thesis and relevant documents in the 1st batch: 8th month of the 2nd school year;
- h.** Make a dossier to request the establishment of a thesis grading committee: 8th month of the 2nd school year;
- i.** Organize the thesis defense in the 1st batch: The 9th month of the 2nd school year;
- j.** Prepare a dossier of request for recognition of the degree and grant of the 1st batch of diplomas for eligible students: 10th month of the 2nd school year.

3.3. Notes:

- The organization of learning and assessment of the courses is carried out from the 1st to the 3rd semester of the program.
- The implementation of the student's thesis and the organization of the thesis defense takes place in the 4th semester of the program.

- The official duration of the master's program is 2 years, students can extend the duration and thesis defense but must not exceed 4 years.

IV. SUMMARY OF MODULES

1. SOL6001. LEGAL RESEARCH METHODOLOGY

This course aims to provide graduate students with fundamentals of legal research methodology and equip students with theoretical knowledge about different research methods and how to select and combine scientific research methods to achieve the goal of legal research most effectively. The course also helps students practice essential skills of scientific research, how to conduct a research project, and effectively use research methods in other fields of legal science.

2. CIL6040. REAL RIGHTS

This course aims to provide students with knowledge of concepts, classifications, legal effectiveness, bases for establishment and termination of different real rights, as well as methods for protecting real rights in case of infringement.

3. CIL6041. LAW ON EXTRA-PATRIMONIAL RIGHTS (PERSONAL RIGHTS)

This course aims at providing graduate students with modern, in-depth, up-to-date knowledge of law on personal rights and the skills to apply such knowledge to assess Vietnamese law, to find gaps and propose solutions to improve Vietnamese law on personal rights.

4. CIL6042. COMPARATIVE CONTRACT LAW

This course aims at providing graduate students with modern, in-depth, up-to-date knowledge of comparative contract law in civil law system and common law system, development trends of contemporary contract law, basic content of international conventions or model laws such as the Principles of International Commercial Contracts; thereby helping students in comparing, contrasting and evaluating characteristics of

contract law models in the world with Vietnamese contract law, analyzing the relevance and compatibility between Vietnamese contract law and the development trends of contemporary contract law in order to propose solutions to improve Vietnamese contract law.

5. CIL6043. LAW OF INDUSTRIAL PROPERTY RIGHTS AND PLANTS VARIETY RIGHTS

This course aims at providing graduate students with in-depth knowledge of law on industrial property rights and plants variety rights and the skills to apply such knowledge to solve practical problems, to assess Vietnam's current law on industrial property rights and plants variety rights protection, to find gaps and propose solutions to improve the efficiency of industrial property rights and plants variety rights enforcement.

6. CIL6044. EVIDENCE AND PROOF IN CIVIL PROCEDURE

This course aims at providing graduate students with modern, in-depth knowledge of evidence and proof in civil procedure and the skills to apply such knowledge to solve legal problems in practice, to assess Vietnamese civil procedure law of evidence and proof, to find gaps and propose solutions to improve Vietnamese civil procedure law in this area.

7. CIL6045. GENERAL THEORY ON THE LAW OF OBLIGATIONS

The course provides students with a system of in-depth knowledge related to the general theory of the Law of Obligations such as concepts, classifications, legal features, basement for termination of obligations.

8. CIL6046. THEORY OF CIVIL LAW SOURCES

The course "Theory of civil law sources" aims to provide students with a deeper understanding of different civil law sources, their characteristics, nature, classification, role, and application, enable students to apply such knowledge to solve problems related

to civil law issues, mainly theoretical and practical issues focused on legal acts; legal documents; customs; the analogy of law; basic principles; case law; justice

9. CIL.6047. LAW OF COPYRIGHT

This course aims at providing graduate students with in-depth knowledge of law on copyright and the skills to apply such knowledge to solve practical problems concerning copyright law, to assess Vietnam's current copyright law, to find gaps and propose solutions to improve the efficiency and effectiveness of copyright enforcement in Vietnam.

10. CIL6048. LAW OF NON-CONTRACTUAL DAMAGES LIABILITY (TORT LAW)

The course aims to provide students with an in-depth knowledge of the general theory of the law of non-contractual damages liability (Tort Law) such as structure, function, legal characteristics, subject, and basic principles, and enable students to apply theory and law on compensation for non-contractual damages liability to solve practical problems.

11. CIL6049. MATRIMONIAL PROPERTY REGIME

The course "*Matrimonial property regime*" aims at providing graduate students with in-depth knowledge of matrimonial property regime and the skills to apply such knowledge to solve the practical disputes in Vietnam, to find out gaps and propose solutions to improve Vietnamese matrimonial property regime law.

12. CIL6050. LAW OF CIVIL JUDGMENT ENFORCEMENT

This course aims at providing graduate students with modern, in-depth knowledge of law on civil judgment enforcement and the skills to apply such knowledge to solve legal problems in practice, to assess Vietnamese law of civil judgment enforcement, to find gaps and propose solutions to improve Vietnamese law of civil judgment.

13. CIL6051. DIVORCE AND ITS LEGAL CONSEQUENCES

The course “*Divorce and its legal consequences*” aims at providing graduate students with in-depth knowledge of divorce and the skills to apply such knowledge in order to solve the practical disputes in Vietnam, to find out gaps and propose solutions to improve Vietnamese law on divorce and its legal consequences.

14. CIL6052. APPLICATION OF THE CIVIL CODE TO BUSINESS, COMMERCIAL AND LABOR DISPUTE RESOLUTION

The course aims to help learners understand the application of the Civil Code appropriately and enhance their problem-solving skills to resolve business, commercial, and labor disputes. The course clarifies the relationship between the Civil Code and other sources of commercial and labor law. It builds skills related to case analysis, normative analysis, and problem-solving if there are no specific regulations on business, commercial, and labor relations.

15. CIL6053. INHERITANCE LAW

The course provides students with in-depth knowledge of inheritance law from a theoretical perspective to current Vietnamese law. Specifically, the course provides the following knowledge: Some basic concepts and legal issues in the general part such as the leaver, heir, inheritance, inheritance management , the statute of limitations for initiating an inheritance lawsuit; Legal issues of wills and wills validity; Inheritance issues according to the law such as inheritance and inheritance.

16. CIL6054. LEGAL PERSONS

The module equips learners with information and knowledge about the theory of legal persons, the classification of legal persons, and the organization and operation of legal persons and aims to build skills in settling disputes relating to legal persons. The module also provides in-depth knowledge of legal rules for each specific type of legal person.

17. CIL6055. INTERLECTUAL PROPERTY DISPUTE RESOLUTION

This course aims at providing graduate students with in-depth knowledge of intellectual property (IP) dispute resolution and the skills to apply such knowledge to solve IP disputes in practice, to assess Vietnam's current situation of IP dispute resolution, to find gaps and propose solutions to improve the efficiency and effectiveness of IP dispute resolution in Vietnam

18. CIL6056. THE LAW OF AGENCY

The course provides students with in-depth knowledge of representative law from a theoretical perspective, current Vietnamese law, to comparative law. Specifically, the module offers the following expertise: Concept, function, structure of representation; Some of the legal issues related to the agent are not authorized representation and agent abuse of authority.

19. CIL6057. LAW OF TRANSPORTATION CONTRACTS

The course equips learners systematically and intensively with knowledge and skills related to the law of transportation contracts, specifically contracts for transport of passengers, contracts for the transport of property with either shipping fees or free shipping and either standard shipping or irregular shipping by different means of transportation.

20. CIL6058. LAW OF LEASING

This course aims at providing graduate students with modern, in-depth knowledge of comparative civil procedure law and the skills to apply such knowledge to assess Vietnamese civil procedure law, to find gaps and propose solutions to improve Vietnamese civil procedure law in line with global trends.

21. CIL.6059. LAW ON ASSOCIATION CONTRACTS

This course aims at providing graduate students with modern, in-depth knowledge of law on association contracts and the skills to apply such knowledge to assess Vietnamese law, to find gaps and propose solutions to improve Vietnamese law on association contracts.

22. CIL6060. COMPARATIVE CIVIL PROCEDURE

This course aims at providing graduate students with modern, in-depth knowledge of comparative civil procedure law and the skills to apply such knowledge to assess Vietnamese civil procedure law, to find gaps and propose solutions to improve Vietnamese civil procedure law in line with global trends.

23. CIL6061. COMPARATIVE MARRIAGE AND FAMILY LAW

The course “Comparative Marriage and Family Law” aims at providing graduate students with modern, in-depth knowledge of comparative marriage and family law and the skills to apply such knowledge to assess Vietnamese marriage and family law, to find gaps and propose solutions to improve Vietnamese marriage and family law in line with global trends.

24. CIL6062. LAW ON COLLECTIVE CONTRACT

This course aims at providing graduate students with modern, in-depth knowledge of law on collective contracts and the skills to apply such knowledge to assess Vietnamese law, to find gaps and propose solutions to improve Vietnamese law on collective contracts.

25. CIL6063. ADVANCED ROMAN LAW

This course aims at providing graduate students with modern, in-depth up-to-date knowledge of Roman private law and to compare with and to find gaps and propose solutions to improve Vietnamese civil law.

VI. ASSESSMENT OF LEARNING RESULTS

6.1. Assessment of the courses

	<i>Partial assessment</i>		<i>Final assessment</i>
	<i>Regular assessment</i>	<i>Mid-term assessment</i>	
<i>Purpose, nature</i>	These activities are carried out by the academic staff by using different assessment techniques in teaching forms to check the students' mastery of knowledge and skills specified in the course objectives, and thereby get feedback to help them and the students adjust their teaching and learning methods accordingly.	These activities are carried out by the academic staff at the times specified in the course outline, in order to assess to what level the course objectives are achieved by learners at the respective stage.	These activities are carried out by the School to evaluate the entire knowledge of the course and its relationship with other course.
<i>Format</i>	Decided by the lecturer (open-ended question, multiple-choice question, oral test, project, or a	Decided by the lecturer (open-ended question, multiple-choice question, oral test, project, or a	Decided by the Dean (open-ended question, multiple-choice question, oral test, project, or a

	combination of these forms depending on the course outline)	combination of these forms depending on the course outline)	combination of these forms depending on the course outline)
Criteria	<ol style="list-style-type: none"> 1. Fulfill the specific requirements of the lecturer; 2. Summarize the learned knowledge; 3. Draw out the research problem; 4. Reflect self-study knowledge. 	<ol style="list-style-type: none"> 1. Know the basic knowledge of the course, relevant concepts and regulations learned up to the time of assessment; 2. Understand the knowledge of the course learned up to the time of assessment; 3. Able to apply and use the knowledge learned up to the time of assessment to solve simple legal situations; 4. Ability to analyze the knowledge acquired up to the time of assessment; 	<ol style="list-style-type: none"> 1. Know the basic knowledge of the course, relevant concepts and legal regulations; 2. Understand the knowledge of the course; 3. Able to apply and use knowledge to solve simple legal situations; 4. Able to analyze the acquired knowledge; 5. Able to synthesize knowledge not only within the course but also related knowledge, forming legal thinking in a systematic way; 6. Able to detect, forecast, and evaluate arising legal problems,

			and to provide legal solutions with practical value.
Percentage	Based on the course outline but not more than 40%		Based on the course outline but at least 60%

Grading scale of the final examination

The final exam is scored on a 0-10 scale, odd to 0.5 according to the learner's ability, specifically:

Score	Ability
0	- Completely do not know any basic knowledge of the course, relevant concepts, and legal regulations.
0.5-1.5	- Know some basic knowledge of the course, relevant concepts, and legal regulations.
2-2.5	- Know some basic knowledge of the course, relevant concepts, and legal regulations.
3-3.5	- Know but not fully understand the basic knowledge of the course, relevant concepts, and legal regulations.
4-4.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations.
5-5.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem.
6-6.5	- Know the basic knowledge of the course, relevant concepts, and legal

	<p>regulations;</p> <ul style="list-style-type: none"> - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations.
7-7.5	<ul style="list-style-type: none"> - Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations; - Able to analyze the acquired knowledge.
8-8.5	<ul style="list-style-type: none"> - Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations; - Able to analyze the acquired knowledge.; - Able to synthesize knowledge not only within the course but also related knowledge, forming systematically legal thinking.
9-10	<ul style="list-style-type: none"> - Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations; - Able to analyze the acquired knowledge.;

	<ul style="list-style-type: none">- Able to synthesize knowledge not only within the course but also related knowledge, forming systematically legal thinking;- Able to detect, forecast and evaluate arising legal issues, and to provide legal solutions with practical value.
--	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

6.2. Assessment of the learning results

Students' learning results are assessed after each semester according to the following criteria:

- The amount of knowledge is the total number of credits of the courses (excluding elective courses) that the student registers for the semester.

- The cumulative knowledge amount is the total number of credits of the courses that have been assessed as passing since the beginning of the program
- Grade Point Average (GPA) is the credit-weighted average of the courses the student registers for in that semester (including the courses that are assessed as passing and failing).
- The overall average score of the courses is the credit-weighted average of the courses that the student has enrolled in since the beginning of the program to the time of consideration (including the courses that are assessed as passing and failing).
- The cumulative GPA is the credit-weighted average of the courses rated as passing that the student has accumulated since the beginning of the program to the time of consideration.

VII. RIGHTS AND OBLIGATIONS OF STUDENTS

7.1. Rights of learners

1. To fully enjoy the current regimes and policies of the Party and State as well as the regulations of Hanoi National University, Hanoi and the training unit;
2. Được phép thôi học vì lý do chủ quan của cá nhân, trong trường hợp này, học viên phải hoàn trả cho đơn vị đào tạo toàn bộ kinh phí đào tạo từ ngân sách nhà nước trong thời gian theo học; Being allowed to drop out for personal reasons, in this case, the student must refund to the training unit all training expenses covered by the state budget during the study period;
3. Students are allowed to take a temporary leave and reserve their learning results in the following cases:
 - a) Being encouraged to join the armed forces. The period of temporary leave does not count towards the maximum time allowed to study;

b) Being sick or having an accident requiring long-term treatment is certified by a medical facility. The period of temporary leave does not count towards the maximum time allowed to study;

c) For personal reasons. In this case, students must study at least one semester at the training unit, not be forced to drop out and must achieve a cumulative GPA of not less than 2.00. Temporary leaves for personal needs count towards the maximum time allowed to study.

Students who take temporary school leave, if they want to continue their studies, must submit a request to the Head of the training unit to resolve it no later than 2 weeks before the expiration of the temporary leave period.

7.1. OBLIGATIONS OF STUDENTS

1. Fulfill the obligations of citizens according to the provisions of law. Foreign students must comply with Vietnamese laws and respect Vietnamese customs and practices;

2. Strictly comply with the regulations of Vietnam National University, Hanoi and the training unit on student affairs;

3. Things students are not allowed to do: use fake diplomas and certificates; violate examination room disciplines, ask for scores; study, take the exam, practice for others or ask others to study, take the exam or practice for them; copy documents without quoting or have essays, theses, graduation projects, scientific research works done by others; carry out or participate in illegal activities. Students who are dishonest and commit frauds in scientific research, essays, theses, and graduation projects will be disciplined from one-year suspension to expulsion.

4. Students are responsible for strictly complying with the regulations on discipline in the examination room. Violations will be disciplined at the following levels:

a) Reprimand: Reminds are applied to students who look at other students' work once, exchanging test papers, having discussions during the exam. Students who are

reprimanded when taking the exam will have 25% of their score deducted from the exams;

b) Warning: Warnings are made to students who make one of the following violations:

- Has been reprimanded once but during the exam time of that course still continues to violate the regulations;
- Exchange work, scratch paper with others;
- Copy other people's work.

Exams with similar conclusions will be treated the same, except where the person being handled has enough evidence to prove that he is really being plagiarized, the head of the training unit may consider a reduction from the warning to reprimand. Students who are warned during the exam will have their score deducted by 50% of the test score for that course;

c) Exam suspension: This is applied to students who make one of the following violations:

- Having been warned once, but during the exam time of that course, he continues to violate the regulations;
- After removing the exam envelop, he is discovered to carry unauthorized items;
- Send the test questions to outside of the exam room or receive the solutions from outside into the exam room.

Students who are disciplined for taking the test will be given a zero (0) on the exam for that course and must leave the examination room immediately after the decision to suspend the test is issued. The above-mentioned forms of discipline shall be recorded in a written note by the examination officer, evidences will be collected, and the type of disciplination will be clearly stated in the note;

d) Students who take the exam for other students or ask somebody to take the test for them will be disciplined at the level of suspension of 1 year for the first violation and forced expulsion for the second violation.

VIETNAM NATIONAL UNIVERSITY, HANOI

SCHOOL OF LAW

**PROGRAM SPECIFICATION OF THE MASTER'S
PROGRAM IN CIVIL LAW AND CIVIL PROCEDURE**

(2015)

Hanoi, mm 11 yy 2015

II. BASIC INFORMATION ABOUT THE TRAINING PROGRAM IN CIVIL LAW AND CIVIL PROCEDURE LAW

Awarded by	Vietnam National University, Hanoi (VNU)
Implemented by	VNU School of Law (VNU-SL)
Accredited by	AUN-QA (AEAN University Network)
Degree awarded after graduation	The Degree of Master in Law
Major	+ In English: Civil Law and Civil Procedure Law Code: 60 38 01 03
Goal	<p>The research-oriented master's degree program in Civil Law and Civil Procedure has a goal of training systematic theoretical knowledge and proficient skills in the study of civil law in Vietnam, has the potential to work independently and creatively; has the ability to develop from research results, discover and organize the implementation of complex jobs in academic and professional activities, promote and effectively use specialized knowledge of civil law and civil procedure in finding theoretical and practical solutions in Vietnam; solve a corresponding problem in legal science, and apply research results in practice as well as contribute to law-making activities.</p>
Expected learning outcomes	<p>3. Knowledge</p> <p>PLO1: General knowledge section</p> <p>Learners clearly understand and know how to apply Marxist-Leninist philosophy and worldview in academic practice. Learners have basic understanding of and use foreign languages (English) in study, research, and professional activities (listening, speaking, reading, and writing).</p> <p>PLO2: Fundamental knowledge session</p> <p>Learners understand how to use common and specialized scientific research methods in studying, researching documents, writing and defending graduation theses, as well as in professional activities and legal teaching methods at the university level after finishing the course.</p> <p>PLO3: Knowledge Specialization Session</p> <p>Learners are given in-depth theoretical and practical knowledge, as well as the necessary skills, in the study of civil</p>

law, including areas such as Real Rights (Rights of Objects), Law of Obligations (Rights of Persons), Intellectual Property Law (Intellectual Property Rights; Industrial Property Rights, Adjacent Rights...), Marriage and Family Law (Marriage regime, Divorce and legal consequences of divorce...), Inheritance Law... Furthermore, this knowledge session provides additional relevant legal knowledge such as: State Management of Civil Activities, ideological and technological basis in Public and Private Law, and Comparative Law.

4. Skills

2.1. Professional Skills

PLO4: Hard skills

- Possessing scientific research abilities: Identifying research questions; establishing an independent, creative research organization; assessing, critiquing, receiving, and implementing research findings in the subject of civil law and civil procedure;
- Recognizing, evaluating, and properly assessing legal issues in specific areas of civil law and civil procedure;
- Having the capability of investigating and analyzing legal norms, selecting and using provisions of civil law and civil procedure to address problems in civil life;
- Staying up to date on new civil law and civil procedure information and practical applications.
- Having the ability to independently offer legal advice or resolve civil law and civil processes problems;
- Using foreign languages to access foreign civil law and civil process materials; having appropriate foreign language skills to work directly with foreigners (having B1 certificate);

PLO5: Soft skills

- Having the capability of conveying information, presenting research results in scientific forums, and writing scientific reports in the field of civil law and civil procedure;
- Having the capability of writing and presenting scientific issues in the field of civil law and civil procedure;
- Having the capability of working independently, solving problems with logical and creative thinking, and proposing issues related to civil law and civil procedure to assist the Government

	<p>and National Assembly;</p> <ul style="list-style-type: none"> - Having skills in teamwork, communication, presentation, and communication abilities. - Having the ability to look up information, conduct research, update legal knowlegde, and react to changes in civil law and civil process. - Having the capability of negotiating and providing legal advice in the areas of civil law and civil process. <p>PLO6: Ethical qualities</p> <p><i>a. Personal ethical qualities</i></p> <p>Having high ethical standards, being honest and objective.</p> <p><i>b. Professional ethical qualities</i></p> <ul style="list-style-type: none"> - Having the necessary courage and professional ethics of a lawyer. - Loving the job and having a positive sense of responsibility for the job. - Valuing credibility, maintaining a professional demeanor at work, respecting colleagues and customers. - Demonstrating a progressive, cooperative and courteous attitude toward colleagues and organizations. - Having a sense of self-study, honing and improving capacity and professionalism. - Actively, confidently, and courageously expressing and listening to others' viewpoints. <p><i>c. Social ethical qualities</i></p> <ul style="list-style-type: none"> - Consciously preserving community and societal interests, thereby contributing to the development of a just, democratic, and civilized society. - Having a strong sense of respect for and adherence to the law. - Fighting against infractions and violations of the law.
<p>Jobs that students are able to take after graduation</p>	<ul style="list-style-type: none"> - <i>Group 1:</i> Working in law enforcement agencies such as: (i) Court, Procuracy, Judgment Enforcement Agency, Police; (ii) Working in government agencies at all levels, including central and local state agencies such as the Government, Ministries, People's Committees at all levels, Office of the National Assembly.

III. PROGRESS OF TRAINING PROGRAM

k. Opening: The first week of the first school year

l. Organizing learning and course assessments: Semesters 1, 2, 3 (From the 1st month of the first school year to the end of the 3rd month of the 2nd school year);

m. Organizing the evaluation of the outline, approving the thesis topic: At the end of the 3rd semester (the third month of the second school year);

n. Making a decision to recognize the thesis topic, appoint an instructor: At the beginning of the 4th semester (From the 3rd to the 5th month of the 2nd school year);

o. Students write thesis: Semester 4 (From the 4th to the 6th month of the 2nd academic year);

p. Students report the progress of their thesis to the Departments: At the end of semester 4 (the 6th month of the 2nd school year);

q. Students submit their thesis and relevant documents in the 1st batch: 8th month of the 2nd school year;

r. Make a dossier to request the establishment of a thesis grading committee: 8th month of the 2nd school year;

s. Organize the thesis defense in the 1st batch: The 9th month of the 2nd school year;

t. Prepare a dossier of request for recognition of the degree and grant of the 1st batch of diplomas for eligible students: 10th month of the 2nd school year.

Notes:

- The organization of learning and assessment of the courses is carried out from the 1st to the 3rd semester of the program.

- The implementation of the student's thesis and the organization of the thesis defense takes place in the 4th semester of the program.

- The official duration of the master's program is 2 years, students can extend the duration and thesis defense but must not exceed 4 years.

IV. SUMMARY OF MODULES

1. ASL6011. LEGAL RESEARCH METHODOLOGY

This course aims to provide graduate students with fundamentals of legal research methodology and equip students with theoretical knowledge about different research methods and how to select and combine scientific research methods to achieve the goal of legal research most effectively. The course also helps students practice essential skills of scientific research, how to conduct a research project, and effectively use research methods in other fields of legal science.

2. ASL6012 LEGAL TEACHING METHODS IN UNIVERSITY

This course provides students with the following knowledge:

- Fundamental legal teaching methodologies.
- Theoretical knowledge of various legal teaching methods;
- How to choose, integrate, and teach law in order to achieve teaching goals in the most effective way.
- Fundamental teaching skills, such as how to organize the legal teaching process and effectively use active teaching methods, particularly knowing how to use assessment forms as an active teaching tool for law students at the university level.

3. CIL6040. REAL RIGHTS

This course aims to provide students with knowledge of concepts, classifications, legal effectiveness, bases for establishment and termination of different real rights, as well as methods for protecting real rights in case of infringement.

4. CIL6041. LAW ON EXTRA-PATRIMONIAL RIGHTS (PERSONAL RIGHTS)

This course aims at providing graduate students with modern, in-depth, up-to-date knowledge of law on personal rights and the skills to apply such knowledge to assess Vietnamese law, to find gaps and propose solutions to improve Vietnamese law on personal rights.

5. CIL6042. COMPARATIVE CONTRACT LAW

This course aims at providing graduate students with modern, in-depth, up-to-date knowledge of comparative contract law in civil law system and common law system, development trends of contemporary contract law, basic content of international conventions or model laws such as the Principles of International Commercial Contracts; thereby helping students in comparing, contrasting and evaluating characteristics of contract law models in the world with Vietnamese contract law, analyzing the relevance

and compatibility between Vietnamese contract law and the development trends of contemporary contract law in order to propose solutions to improve Vietnamese contract law.

6. CIL6043. LAW OF INDUSTRIAL PROPERTY RIGHTS AND PLANTS VARIETY RIGHTS

This course aims at providing graduate students with in-depth knowledge of law on industrial property rights and plants variety rights and the skills to apply such knowledge to solve practical problems, to assess Vietnam's current law on industrial property rights and plants variety rights protection, to find gaps and propose solutions to improve the efficiency of industrial property rights and plants variety rights enforcement.

7. CIL6044. EVIDENCE AND PROOF IN CIVIL PROCEDURE

This course aims at providing graduate students with modern, in-depth knowledge of evidence and proof in civil procedure and the skills to apply such knowledge to solve legal problems in practice, to assess Vietnamese civil procedure law of evidence and proof, to find gaps and propose solutions to improve Vietnamese civil procedure law in this area.

8. CIL6045. GENERAL THEORY ON THE LAW OF OBLIGATIONS

The course provides students with a system of in-depth knowledge related to the general theory of the Law of Obligations such as concepts, classifications, legal features, basement for termination of obligations.

9. CIL6046. THEORY OF CIVIL LAW SOURCES

The course "Theory of civil law sources" aims to provide students with a deeper understanding of different civil law sources, their characteristics, nature, classification, role, and application, enable students to apply such knowledge to solve problems related to civil law issues, mainly theoretical and practical issues focused on legal acts; legal documents; customs; the analogy of law; basic principles; case law; justice

10. CIL.6047. LAW OF COPYRIGHT

This course aims at providing graduate students with in-depth knowledge of law on copyright and the skills to apply such knowledge to solve practical problems concerning copyright law, to assess Vietnam's current copyright law, to find gaps and propose solutions to improve the efficiency and effectiveness of copyright enforcement in Vietnam.

11. CIL6048. LAW OF NON-CONTRACTUAL DAMAGES LIABILITY (TORT LAW)

The course aims to provide students with an in-depth knowledge of the general theory of the law of non-contractual damages liability (Tort Law) such as structure, function, legal

characteristics, subject, and basic principles, and enable students to apply theory and law on compensation for non-contractual damages liability to solve practical problems.

12. CIL6049. MATRIMONIAL PROPERTY REGIME

The course “*Matrimonial property regime*” aims at providing graduate students with in-depth knowledge of matrimonial property regime and the skills to apply such knowledge to solve the practical disputes in Vietnam, to find out gaps and propose solutions to improve Vietnamese matrimonial property regime law.

13. CIL6050. LAW OF CIVIL JUDGMENT ENFORCEMENT

This course aims at providing graduate students with modern, in-depth knowledge of law on civil judgment enforcement and the skills to apply such knowledge to solve legal problems in practice, to assess Vietnamese law of civil judgment enforcement, to find gaps and propose solutions to improve Vietnamese law of civil judgment.

14. CIL6051. DIVORCE AND ITS LEGAL CONSEQUENCES

The course “*Divorce and its legal consequences*” aims at providing graduate students with in-depth knowledge of divorce and the skills to apply such knowledge in order to solve the practical disputes in Vietnam, to find out gaps and propose solutions to improve Vietnamese law on divorce and its legal consequences.

15. CIL6052. APPLICATION OF THE CIVIL CODE TO BUSINESS, COMMERCIAL AND LABOR DISPUTE RESOLUTION

The course aims to help learners understand the application of the Civil Code appropriately and enhance their problem-solving skills to resolve business, commercial, and labor disputes. The course clarifies the relationship between the Civil Code and other sources of commercial and labor law. It builds skills related to case analysis, normative analysis, and problem-solving if there are no specific regulations on business, commercial, and labor relations.

16. CIL6053. INHERITANCE LAW

The course provides students with in-depth knowledge of inheritance law from a theoretical perspective to current Vietnamese law. Specifically, the course provides the following knowledge: Some basic concepts and legal issues in the general part such as the leaver, heir, inheritance, inheritance management, the statute of limitations for initiating an inheritance lawsuit; Legal issues of wills and wills validity; Inheritance issues according to the law such as inheritance and inheritance.

17. CIL6054. LEGAL PERSONS

The module equips learners with information and knowledge about the theory of legal persons, the classification of legal persons, and the organization and operation of legal persons and aims to build skills in settling disputes relating to legal persons. The module also provides in-depth knowledge of legal rules for each specific type of legal person.

18. CIL6055. INTERLECTUAL PROPERTY DISPUTE RESOLUTION

This course aims at providing graduate students with in-depth knowledge of intellectual property (IP) dispute resolution and the skills to apply such knowledge to solve IP disputes in practice, to assess Vietnam's current situation of IP dispute resolution, to find gaps and propose solutions to improve the efficiency and effectiveness of IP dispute resolution in Vietnam

19. CIL6056. THE LAW OF AGENCY

The course provides students with in-depth knowledge of representative law from a theoretical perspective, current Vietnamese law, to comparative law. Specifically, the module offers the following expertise: Concept, function, structure of representation; Some of the legal issues related to the agent are not authorized representation and agent abuse of authority.

20. CIL6057. LAW OF TRANSPORTATION CONTRACTS

The course equips learners systematically and intensively with knowledge and skills related to the law of transportation contracts, specifically contracts for transport of passengers, contracts for the transport of property with either shipping fees or free shipping and either standard shipping or irregular shipping by different means of transportation.

21. CIL6058. LAW OF LEASING

This course aims at providing graduate students with modern, in-depth knowledge of comparative civil procedure law and the skills to apply such knowledge to assess Vietnamese civil procedure law, to find gaps and propose solutions to improve Vietnamese civil procedure law in line with global trends.

22. CIL.6059. LAW ON ASSOCIATION CONTRACTS

This course aims at providing graduate students with modern, in-depth knowledge of law on association contracts and the skills to apply such knowledge to assess Vietnamese law, to find gaps and propose solutions to improve Vietnamese law on association contracts.

23. CIL6060. COMPARATIVE CIVIL PROCEDURE

This course aims at providing graduate students with modern, in-depth knowledge of comparative civil procedure law and the skills to apply such knowledge to assess Vietnamese civil procedure law, to find gaps and propose solutions to improve Vietnamese civil procedure law in line with global trends.

24. CIL6061. COMPARATIVE MARRIAGE AND FAMILY LAW

The course "*Comparative Marriage and Family Law*" aims at providing graduate students with modern, in-depth knowledge of comparative marriage and family law and the skills to apply such knowledge to assess Vietnamese marriage and family law, to find

gaps and propose solutions to improve Vietnamese marriage and family law in line with global trends.

25. CIL6062. LAW ON COLLECTIVE CONTRACT

This course aims at providing graduate students with modern, in-depth knowledge of law on collective contracts and the skills to apply such knowledge to assess Vietnamese law, to find gaps and propose solutions to improve Vietnamese law on collective contracts.

26. CIL6063. ADVANCED ROMAN LAW

This course aims at providing graduate students with modern, in-depth up-to-date knowledge of Roman private law and to compare with and to find gaps and propose solutions to improve Vietnamese civil law.

VI. ASSESSMENT OF LEARNING RESULTS

6.1. Assessment of the modules

	<i>Partial assessment</i>		<i>Final assessment</i>
	<i>Regular assessment</i>	<i>Mid-term assessment</i>	
<i>Purposes, features</i>	These activities are carried out by the academic staff by using different assessment techniques in teaching forms to check the students’ mastery of knowledge and skills specified in the course objectives, and thereby get feedback to help them and the students adjust their teaching and learning methods accordingly.	These activities are carried out by the academic staff at the times specified in the course outline, in order to assess to what level the course objectives are achieved by learners at the respective stage.	These activities are carried out by the School to evaluate the entire knowledge of the course and its relationship with other course.
<i>Format</i>	Decided by the lecturer (open-ended question, multiple-choice question, oral test, project, or a	Decided by the lecturer (open-ended question, multiple-choice question, oral test, project, or a	Decided by the Dean (open-ended question, multiple-choice question, oral test, project, or a combination of these

	combination of these forms depending on the course outline)	combination of these forms depending on the course outline)	forms depending on the course outline)
Criteria	<ol style="list-style-type: none"> 1. Fulfill the specific requirements of the lecturer; 2. Summarize the learned knowledge; 3. Draw out the research problem; 4. Reflect self-study knowledge. 	<ol style="list-style-type: none"> 1. Know the basic knowledge of the course, relevant concepts and regulations learned up to the time of assessment; 2. Understand the knowledge of the course learned up to the time of assessment; 3. Able to apply and use the knowledge learned up to the time of assessment to solve simple legal situations; 4. Ability to analyze the knowledge acquired up to the time of assessment; 	<ol style="list-style-type: none"> 1. Know the basic knowledge of the course, relevant concepts and legal regulations; 2. Understand the knowledge of the course; 3. Able to apply and use knowledge to solve simple legal situations; 4. Able to analyze the acquired knowledge; 5. Able to synthesize knowledge not only within the course but also related knowledge, forming legal thinking in a systematic way; 6. Able to detect, forecast, and evaluate arising legal problems, and to provide legal solutions with practical value.
Percentage	Based on the course outline but not more than 40%		Based on the course outline but at least 60%

Grading scale of the final examination

The final exam is scored on a 0-10 scale, odd to 0.5 according to the learner's ability, specifically:

Score	Ability
0	- Completely do not know any basic knowledge of the course, relevant concepts, and legal regulations.
0.5-1.5	- Know some basic knowledge of the course, relevant concepts, and legal

	regulations.
2-2.5	- Know some basic knowledge of the course, relevant concepts, and legal regulations.
3-3.5	- Know but not fully understand the basic knowledge of the course, relevant concepts, and legal regulations.
4-4.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations.
5-5.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem.
6-6.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations.
7-7.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations; - Able to analyze the acquired knowledge.
8-8.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations; - Able to analyze the acquired knowledge.; - Able to synthesize knowledge not only within the course but also related knowledge, forming systematically legal thinking.
9-10	- Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations; - Able to analyze the acquired knowledge.; - Able to synthesize knowledge not only within the course but also related knowledge, forming systematically legal thinking;

	- Able to detect, forecast and evaluate arising legal issues, and to provide legal solutions with practical value.
--	--------------------------------------------------------------------------------------------------------------------

6.2. Assessment of the learning results

Students' learning results are assessed after each semester according to the following criteria:

- The amount of knowledge is the total number of credits of the courses (excluding elective courses) that the student registers for the semester.
- The cumulative knowledge amount is the total number of credits of the courses that have been assessed as passing since the beginning of the program
- Grade Point Average (GPA) is the credit-weighted average of the courses the student registers for in that semester (including the courses that are assessed as passing and failing).
- The overall average score of the courses is the credit-weighted average of the courses that the student has enrolled in since the beginning of the program to the time of consideration (including the courses that are assessed as passing and failing).
- The cumulative GPA is the credit-weighted average of the courses rated as passing that the student has accumulated since the beginning of the program to the time of consideration.

VII. RIGHTS AND OBLIGATIONS OF STUDENTS

7.1. Rights of learners

1. To fully enjoy the current regimes and policies of the Party and State as well as the regulations of Hanoi National University, Hanoi and the training unit;
2. Being allowed to drop out for personal reasons, in this case, the student must refund to the training unit all training expenses covered by the state budget during the study period;
3. Students are allowed to take a temporary leave and reserve their learning results in the following cases:
 - a) Being encouraged to join the armed forces. The period of temporary leave does not count towards the maximum time allowed to study;
 - b) Being sick or having an accident requiring long-term treatment is certified by a medical facility. The period of temporary leave does not count towards the maximum time allowed to study;
 - c) For personal reasons. In this case, students must study at least one semester at the training unit, not be forced to drop out and must achieve a cumulative GPA of not less than 2.00. Temporary leaves for personal needs count towards the maximum time allowed to study.

Students who take temporary school leave, if they want to continue their studies, must submit a request to the Head of the training unit to resolve it no later than 2 weeks before the expiration of the temporary leave period.

7.2. Obligations of students

1. Fulfill the obligations of citizens according to the provisions of law. Foreign students must comply with Vietnamese laws and respect Vietnamese customs and practices;
2. Strictly comply with the regulations of Vietnam National University, Hanoi and the training unit on student affairs;
3. Things students are not allowed to do: use fake diplomas and certificates; violate examination room disciplines, ask for scores; study, take the exam, practice for others or ask others to study, take the exam or practice for them; copy documents without quoting or have essays, theses, graduation projects, scientific research works done by others; carry out or participate in illegal activities. Students who are dishonest and commit frauds in scientific research, essays, theses, and graduation projects will be disciplined from one-year suspension to expulsion.
4. Students are responsible for strictly complying with the regulations on discipline in the examination room. Violations will be disciplined at the following levels:
 - a) Reprimand: Reminds are applied to students who look at other students' work once, exchanging test papers, having discussions during the exam. Students who are reprimanded when taking the exam will have 25% of their score deducted from the exams;
 - b) Warning: Warnings are made to students who make one of the following violations:
 - Has been reprimanded once but during the exam time of that course still continues to violate the regulations;
 - Exchange work, scratch paper with others;
 - Copy other people's work.Exams with similar conclusions will be treated the same, except where the person being handled has enough evidence to prove that he is really being plagiarized, the head of the training unit may consider a reduction from the warning to reprimand. Students who are warned during the exam will have their score deducted by 50% of the test score for that course;
 - c) Exam suspension: This is applied to students who make one of the following violations:
 - Having been warned once, but during the exam time of that course, he/she continues to violate the regulations;
 - After removing the exam envelop, he/she is discovered to carry unauthorized items;
 - Send the test questions to outside of the exam room or receive the solutions from outside into the exam room.

Students who are disciplined for taking the test will be given a zero (0) on the exam for that course and must leave the examination room immediately after the decision to suspend the test is issued. The above-mentioned forms of discipline shall be recorded in a written note by the examination officer, evidences will be collected, and the type of disciplination will be clearly stated in the note;

d) Students who take the exam for other students or ask somebody to take the test for them will be disciplined at the level of suspension of 1 year for the first violation and forced expulsion for the second violation.

III. PROGRESS OF TRAINING PROGRAM

3.1. Duration: from 18 month to 24 months (divided into 02 years)

- **First year: 28** credits

- **Second year: 36** credits

3.2. Training sequences:

u. Opening: The first week of the first school year

v. Organizing learning and course assessments: Semesters 1, 2, 3 (From the 1st month of the first school year to the end of the 3rd month of the 2nd school year);

w. Organizing the evaluation of the outline, approving the thesis topic: At the end of the 3rd semester (the third month of the second school year);

x. Making a decision to recognize the thesis topic, appoint an instructor: At the beginning of the 4th semester (From the 3rd to the 5th month of the 2nd school year);

- y. Students write thesis: Semester 4 (From the 4th to the 6th month of the 2nd academic year);
- z. Students report the progress of their thesis to the Departments: At the end of semester 4 (the 6th month of the 2nd school year);
- aa. Students submit their thesis and relevant documents in the 1st batch: 8th month of the 2nd school year;
- bb. Make a dossier to request the establishment of a thesis grading committee: 8th month of the 2nd school year;
- cc. Organize the thesis defense in the 1st batch: The 9th month of the 2nd school year;
- dd. Prepare a dossier of request for recognition of the degree and grant of the 1st batch of diplomas for eligible students: 10th month of the 2nd school year.

3.3. Notes:

- The organization of learning and assessment of the courses is carried out from the 1st to the 3rd semester of the program.
- The implementation of the student's thesis and the organization of the thesis defense takes place in the 4th semester of the program.
- The official duration of the master's program is 2 years, students can extend the duration and thesis defense but must not exceed 4 years.

IV. SUMMARY OF MODULES

1. PHI5001. Philosophy: According to general rule.

2. ENG5001 (RUS5001; FRE5001; GER5001; CHI5001). Basic foreign language: According to general rule.

3. SOL6001. Legal Research methodology: 2 credits

This course aims to provide graduate students with fundamentals of legal research methodology and equip students with theoretical knowledge about different research methods and how to select and combine scientific research methods to achieve the goal of legal research most effectively. The course also helps students practice essential skills of scientific research, how to conduct a research project, and effectively use research methods in other fields of legal science.

4. CIL6040. Real Rights: 2 credits

This course aims to provide students with knowledge of concepts, classifications, legal effectiveness, bases for establishment and termination of different real rights, as well as methods for protecting real rights in case of infringement.

5. CIL6041. Law on extra-patrimonial rights (Personal Rights)

This course aims at providing graduate students with modern, in-depth, up-to-date knowledge of law on personal rights and the skills to apply such knowledge to assess Vietnamese law, to find gaps and propose solutions to improve Vietnamese law on personal rights.

6. CIL6042. Comparative Contract Law: 2 credits

This course aims at providing graduate students with modern, in-depth, up-to-date knowledge of comparative contract law in civil law system and common law system, development trends of contemporary contract law, basic content of international conventions or model laws such as the Principles of International Commercial Contracts; thereby helping students in comparing, contrasting and evaluating characteristics of contract law models in the world with Vietnamese contract law, analyzing the relevance and compatibility between Vietnamese contract law and the development trends of contemporary contract law in order to propose solutions to improve Vietnamese contract law.

7. CIL6043. Laws of Industrial Property Rights and Plants Variety Rights: 2 credits

This course aims at providing graduate students with in-depth knowledge of law on industrial property rights and plants variety rights and the skills to apply such knowledge to solve practical problems, to assess Vietnam's current law on industrial property rights and plants variety rights protection, to find gaps and propose solutions to improve the efficiency of industrial property rights and plants variety rights enforcement.

8. CIL6044. Evidence and proof in civil procedure: 2 credits

This course aims at providing graduate students with modern, in-depth knowledge of evidence and proof in civil procedure and the skills to apply such knowledge to solve legal problems in practice, to assess Vietnamese civil procedure law of evidence and proof, to find gaps and propose solutions to improve Vietnamese civil procedure law in this area.

9. CIL6045. General theory on the law of obligations: 3 credits

The course provides students with a system of in-depth knowledge related to the general theory of the Law of Obligations such as concepts, classifications, legal features, basement for termination of obligations.

10. CIL6046. Theory of civil law sources: 3 credits

The course "Theory of civil law sources" aims to provide students with a deeper understanding of different civil law sources, their characteristics, nature, classification, role, and application, enable students to apply such knowledge to solve problems related to civil law issues, mainly theoretical and practical issues focused on legal acts; legal documents; customs; the analogy of law; basic principles; case law; justice

11. CIL.6047. Law of copyright

This course aims at providing graduate students with in-depth knowledge of law on copyright and the skills to apply such knowledge to solve practical problems concerning copyright law, to assess Vietnam's current copyright law, to find gaps and propose solutions to improve the efficiency and effectiveness of copyright enforcement in Vietnam.

12. CIL6048. Law of non-contractual damages liability (Tort Law)

The course aims to provide students with an in-depth knowledge of the general theory of the law of non-contractual damages liability (Tort Law) such as structure, function, legal characteristics, subject, and basic principles, and enable students to apply theory and law on compensation for non-contractual damages liability to solve practical problems.

13. CIL6049. Matrimonial Property Regime

The course "*Matrimonial property regime*" aims at providing graduate students with in-depth knowledge of matrimonial property regime and the skills to apply such knowledge to solve the practical disputes in Vietnam, to find out gaps and propose solutions to improve Vietnamese matrimonial property regime law.

14. CIL6050. Law of civil judgement enforcement

This course aims at providing graduate students with modern, in-depth knowledge of law on civil judgment enforcement and the skills to apply such knowledge to solve legal problems in practice, to assess Vietnamese law of civil judgment enforcement, to find gaps and propose solutions to improve Vietnamese law of civil judgment.

15. CIL6051. Divorce and its legal consequences

The course "*Divorce and its legal consequences*" aims at providing graduate students with in-depth knowledge of divorce and the skills to apply such knowledge in order to solve the practical disputes in Vietnam, to find out gaps and propose solutions to improve Vietnamese law on divorce and its legal consequences.

16. CIL6052. Application of the civil code to business, commercial and labor dispute resolution

The course aims to help learners understand the application of the Civil Code appropriately and enhance their problem-solving skills to resolve business, commercial, and labor disputes. The course clarifies the relationship between the Civil Code and other sources of commercial and labor law. It builds skills related to case analysis, normative analysis, and problem-solving if there are no specific regulations on business, commercial, and labor relations.

17. CIL6053. Inheritance Law

The course provides students with in-depth knowledge of inheritance law from a theoretical perspective to current Vietnamese law. Specifically, the course provides the following knowledge: Some basic concepts and legal issues in the general part such as the

leaver, heir, inheritance, inheritance management , the statute of limitations for initiating an inheritance lawsuit; Legal issues of wills and wills validity; Inheritance issues according to the law such as inheritance and inheritance.

18. CIL6054. Legal Persons

The module equips learners with information and knowledge about the theory of legal persons, the classification of legal persons, and the organization and operation of legal persons and aims to build skills in settling disputes relating to legal persons. The module also provides in-depth knowledge of legal rules for each specific type of legal person.

19. CIL6055. Interlectual property dispute resolution

This course aims at providing graduate students with in-depth knowledge of intellectual property (IP) dispute resolution and the skills to apply such knowledge to solve IP disputes in practice, to assess Vietnam's current situation of IP dispute resolution, to find gaps and propose solutions to improve the efficiency and effectiveness of IP dispute resolution in Vietnam

20. CIL6056. The Law of Agency

The course provides students with in-depth knowledge of representative law from a theoretical perspective, current Vietnamese law, to comparative law. Specifically, the module offers the following expertise: Concept, function, structure of representation; Some of the legal issues related to the agent are not authorized representation and agent abuse of authority.

21. CIL6057. Law of Transportation Contracts

The course equips learners systematically and intensively with knowledge and skills related to the law of transportation contracts, specifically contracts for transport of passengers, contracts for the transport of property with either shipping fees or free shipping and either standard shipping or irregular shipping by different means of transportation.

22. CIL6058. Law of Leasing

This course aims at providing graduate students with modern, in-depth knowledge of comparative civil procedure law and the skills to apply such knowledge to assess Vietnamese civil procedure law, to find gaps and propose solutions to improve Vietnamese civil procedure law in line with global trends.

23. CIL.6059. Law on Association Contracts

This course aims at providing graduate students with modern, in-depth knowledge of law on association contracts and the skills to apply such knowledge to assess Vietnamese law, to find gaps and propose solutions to improve Vietnamese law on association contracts.

24. CIL6060. Comparative Civil Procedure

This course aims at providing graduate students with modern, in-depth knowledge of comparative civil procedure law and the skills to apply such knowledge to assess Vietnamese civil procedure law, to find gaps and propose solutions to improve Vietnamese civil procedure law in line with global trends.

25. CIL6061. Comparative Marriage and Family Law

The course “Comparative Marriage and Family Law” aims at providing graduate students with modern, in-depth knowledge of comparative marriage and family law and the skills to apply such knowledge to assess Vietnamese marriage and family law, to find gaps and propose solutions to improve Vietnamese marriage and family law in line with global trends.

26. CIL6062. Law on Collective Contracy

This course aims at providing graduate students with modern, in-depth knowledge of law on collective contracts and the skills to apply such knowledge to assess Vietnamese law, to find gaps and propose solutions to improve Vietnamese law on collective contracts.

27. CIL6063. Advanced Roman Law

This course aims at providing graduate students with modern, in-depth up-to-date knowledge of Roman private law and to compare with and to find gaps and propose solutions to improve Vietnamese civil law.

28. CIL6064. Law on secured transactions

This course provides graduate students with in-depth theoretical knowledge of law on secured transactions such as the concept, characteristics, and classification of secured transactions, the overriding goal of secured transactions law, different models of secured transactions law, characteristics of modern secured transactions law, and fundamental aspects of secured transactions law (creation, perfection, priority and enforcement of a security right). From a theoretical and comparative lens, students can assess current Vietnamese law on secured transactions, apply theoretical knowledge to solve practical problems concerning secured transactions law, and propose solutions to improve Vietnamese law on secured transactions to meet the demand of international integration.

VI. ASSESSMENT OF LEARNING RESULTS

6.1. Assessment of the courses

	<i>Partial assessment</i>		<i>Final assessment</i>
	<i>Regular assessment</i>	<i>Mid-term assessment</i>	
<i>Purpose, nature</i>	These activities are carried out by the academic staff by using different assessment techniques in teaching forms to check the students' mastery of knowledge and skills specified in the course objectives, and thereby get feedback to help them and the students adjust their teaching and learning methods accordingly.	These activities are carried out by the academic staff at the times specified in the course outline, in order to assess to what level the course objectives are achieved by learners at the respective stage.	These activities are carried out by the School to evaluate the entire knowledge of the course and its relationship with other course.
<i>Format</i>	Decided by the lecturer (open-ended question, multiple-choice question, oral test, project, or a combination of these forms depending on the course outline)	Decided by the lecturer (open-ended question, multiple-choice question, oral test, project, or a combination of these forms depending on the course outline)	Decided by the Dean (open-ended question, multiple-choice question, oral test, project, or a combination of these forms depending on the course outline)
<i>Criteria</i>	<ol style="list-style-type: none"> 1. Fulfill the specific requirements of the lecturer; 2. Summarize the learned knowledge; 3. Draw out the research problem; 4. Reflect self-study knowledge. 	<ol style="list-style-type: none"> 1. Know the basic knowledge of the course, relevant concepts and regulations learned up to the time of assessment; 2. Understand the knowledge of the course learned up to the time of assessment; 3. Able to apply and use the knowledge 	<ol style="list-style-type: none"> 1. Know the basic knowledge of the course, relevant concepts and legal regulations; 2. Understand the knowledge of the course; 3. Able to apply and use knowledge to solve simple legal situations; 4. Able to analyze the acquired knowledge;

		learned up to the time of assessment to solve simple legal situations; 4. Ability to analyze the knowledge acquired up to the time of assessment;	5. Able to synthesize knowledge not only within the course but also related knowledge, forming legal thinking in a systematic way; 6. Able to detect, forecast, and evaluate arising legal problems, and to provide legal solutions with practical value.
Percentage	Based on the course outline but not more than 40%		Based on the course outline but at least 60%

Grading scale of the final examination

The final exam is scored on a 0-10 scale, odd to 0.5 according to the learner's ability, specifically:

Score	Ability
0	- Completely do not know any basic knowledge of the course, relevant concepts, and legal regulations.
0.5-1.5	- Know some basic knowledge of the course, relevant concepts, and legal regulations.
2-2.5	- Know some basic knowledge of the course, relevant concepts, and legal regulations.
3-3.5	- Know but not fully understand the basic knowledge of the course, relevant concepts, and legal regulations.
4-4.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations.
5-5.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem.
6-6.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations.
7-7.5	- Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the

	<p>problem;</p> <ul style="list-style-type: none"> - Able to apply and use the learned knowledge to solve simple legal situations; - Able to analyze the acquired knowledge.
8-8.5	<ul style="list-style-type: none"> - Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations; - Able to analyze the acquired knowledge.; - Able to synthesize knowledge not only within the course but also related knowledge, forming systematically legal thinking.
9-10	<ul style="list-style-type: none"> - Know the basic knowledge of the course, relevant concepts, and legal regulations; - Understand the knowledge of the course, know how to approach the problem; - Able to apply and use the learned knowledge to solve simple legal situations; - Able to analyze the acquired knowledge.; - Able to synthesize knowledge not only within the course but also related knowledge, forming systematically legal thinking; - Able to detect, forecast and evaluate arising legal issues, and to provide legal solutions with practical value.

6.2. Assessment of the learning results

Students' learning results are assessed after each semester according to the following criteria:

- The amount of knowledge is the total number of credits of the courses (excluding elective courses) that the student registers for the semester.
- The cumulative knowledge amount is the total number of credits of the courses that have been assessed as passing since the beginning of the program
- Grade Point Average (GPA) is the credit-weighted average of the courses the student registers for in that semester (including the courses that are assessed as passing and failing).
- The overall average score of the courses is the credit-weighted average of the courses that the student has enrolled in since the beginning of the program to the time of consideration (including the courses that are assessed as passing and failing).
- The cumulative GPA is the credit-weighted average of the courses rated as passing that the student has accumulated since the beginning of the program to the time of consideration.

VII. RIGHTS AND OBLIGATIONS OF STUDENTS

7.1. Rights of learners

1. To fully enjoy the current regimes and policies of the Party and State as well as the regulations of Hanoi National University, Hanoi and the training unit;

2. Being allowed to drop out for personal reasons, in this case, the student must refund to the training unit all training expenses covered by the state budget during the study period;

3. Students are allowed to take a temporary leave and reserve their learning results in the following cases:

a) Being encouraged to join the armed forces. The period of temporary leave does not count towards the maximum time allowed to study;

b) Being sick or having an accident requiring long-term treatment is certified by a medical facility. The period of temporary leave does not count towards the maximum time allowed to study;

c) For personal reasons. In this case, students must study at least one semester at the training unit, not be forced to drop out and must achieve a cumulative GPA of not less than 2.00. Temporary leaves for personal needs count towards the maximum time allowed to study.

Students who take temporary school leave, if they want to continue their studies, must submit a request to the Head of the training unit to resolve it no later than 2 weeks before the expiration of the temporary leave period.

7.1. OBLIGATIONS OF STUDENTS

1. Fulfill the obligations of citizens according to the provisions of law. Foreign students must comply with Vietnamese laws and respect Vietnamese customs and practices;

2. Strictly comply with the regulations of Vietnam National University, Hanoi and the training unit on student affairs;

3. Things students are not allowed to do: use fake diplomas and certificates; violate examination room disciplines, ask for scores; study, take the exam, practice for others or ask others to study, take the exam or practice for them; copy documents without quoting or have essays, theses, graduation projects, scientific research works done by others; carry out or participate in illegal activities. Students who are dishonest and commit frauds in scientific research, essays, theses, and graduation projects will be disciplined from one-year suspension to expulsion.

4. Students are responsible for strictly complying with the regulations on discipline in the examination room. Violations will be disciplined at the following levels:

a) Reprimand: Reprimands are applied to students who look at other students' work once, exchanging test papers, having discussions during the exam. Students who are reprimanded when taking the exam will have 25% of their score deducted from the exams;

b) Warning: Warnings are made to students who make one of the following violations:

- Has been reprimanded once but during the exam time of that course still continues to violate the regulations;

- Exchange work, scratch paper with others;

- Copy other people's work.

Exams with similar conclusions will be treated the same, except where the person being handled has enough evidence to prove that he is really being plagiarized, the head of the training unit may consider a reduction from the warning to reprimand. Students who are warned during the exam will have their score deducted by 50% of the test score for that course;

c) Exam suspension: This is applied to students who make one of the following violations:

- Having been warned once, but during the exam time of that course, he/she continues to violate the regulations;
- After removing the exam envelop, he/she is discovered to carry unauthorized items;
- He/she send the test questions to outside of the exam room or receive the solutions from outside into the exam room.

Students who are disciplined for taking the test will be given a zero (0) on the exam for that course and must leave the examination room immediately after the decision to suspend the test is issued. The above-mentioned forms of discipline shall be recorded in a written note by the examination officer, evidences will be collected, and the type of disciplination will be clearly stated in the note;

d) Students who take the exam for other students or ask somebody to take the test for them will be disciplined at the level of suspension of 1 year for the first violation and forced expulsion for the second violation.

DEAN

ASSOC.PROF.DR. Nguyen Thi Que Anh
